The THRIVE Framework
for system change

The THRIVE Framework provides a set of principles for creating coherent and resource-efficient communities of mental health and wellbeing support for children, young people and families.

It aims to talk about mental health and mental health support in a common language that everyone understands.

The Framework is needs-led. This means that mental health needs are defined by children, young people and families alongside professionals through shared decision making. Needs are not based on severity, diagnosis or health care pathways.

SEND Children Thrive
Matching Provision to Need
School Age

The THRIVE conceptual framework was developed by a collaboration of authors from the Anna Freud National Centre for Children and Families and the Tavistock and Portman NHS Foundation Trust
