White Bridge College - LONG TERM PLAN & RESOURCES 2018 - 2019

subject: Behaviour Support **key stage:4** **staff: Helen Clayton**

AUTUMN 1

Rationale:

It is intended that the Behaviour Support provision in both Room 1 and Room 2 will be available, staffed, developed and monitored throughout the academic year.

In addition to the current provision which supports students in their return to learning in the classroom, it is hoped that a programme of behaviour support, guidance and monitoring will be developed using the materials requested in the attached order. These will facilitate:

-a calm environment
-continuation of and return to academic subjects/classroom based learning
-distraction and concentration for students approaching crisis.
-discussion of emotions
-development of students' own de-escalation techniques
-emotional awareness
-development of empathy

It is also hoped that these will be delivered via 1-1 sessions and small group sessions in addition to the current provision that meets students' immediate needs.
